In the Claims:

- 1.(currently amended) A cleaning composition comprising at least 96.80 percent by weight water, at least 2.4 percent by weight of an amphiphile selected from an ethylene glycol phenyl ether, 1-alkyl-2-pyrrolidone, a quaternary N-alkylaldonamide and a glycol ether, a surfactant and a at least 0.005 percent by weight of hydrocarbon comprising isoparaffinic solvent, wherein the glycol ether is a compound of the formula  $R^1O(RO)_nH$  in which R is a  $C_1-C_8$  alkylene group, n is at least 1 and  $R^1$  is a  $C_1-C_8$  alkyl group, or is an optionally substituted aryl group, wherein the composition exhibits a self-induced motility, wherein the hydrocarbon has 5 or more carbon atoms and is present in an amount 0.05 to 0.5 percent by weight of the composition, and further wherein the surfactant is an alcohol ethoxylate.
- 2.(currently amended) A cleaning composition according to claim 144, wherein the water, the amphiphile and the hydrocarbon co-exist as a single phase without separating from each other as layers.
- 3-8.(canceled)
- 9.(currently amended) A cleaning composition according to claim 1 wherein the surfactant ~~hydrocarbon~~ is present in an amount 0.03 to 0.05 to 0.5 percent by weight of the composition
- 10.(currently amended) A cleaning composition comprising at least 97 percent by weight water, at least 0.1 percent by weight a hydrocarbon and at least 2.6 percent by weight an amphiphile, wherein the hydrocarbon is isoparaffinic solvent, wherein amphiphile is ethylene glycol phenyl ether, and further wherein the cleaning which composition exhibits Marangoni behaviour when exposed to air.
- 11.(previously presented) A method of cleaning a soiled substrate, comprising the application to the soiled substrate of a composition according to claim 1.

US Serial No. 10/597358  
Page 3 of 9

12.(currently amended)      The use of a composition according to claim 1 for the cleaning of household substrates.

13.(previously presented)      A packaged household cleaning product comprising a composition according to claim 1.

14.(previously presented)      A cleaning composition according to claim 1 wherein the composition is in the form of two or three phases in mutual chemical equilibrium.

15-18.(canceled)

19.(currently amended)      A cleaning composition according to claim 10 + wherein the said composition contains ~~one or more of: electrolyte, fragrance,~~ surfactant comprising alcohol ethoxylate.

20.(canceled)
